SMART ELECTRICAL CREATIONS

**MY
SAFETY
MY
CHOICE**

“I take
everyone’s **Advice**
but when it comes to safety
I take no **Chances**”

— *Zumi*

about us

What was once thought of as science fiction is now a reality. Today technology has transformed our lives. Today we are surrounded by innumerable 'smart' devices that perform many of our daily tasks, more efficiently and more productively to enable us lead a smart life.

And for us at FYBROS, all this translates into smart electrical combinations of advanced technology, electrical ingenuity and splendid aesthetics.

Every FYBROS product is designed to deliver peak performance at all times while ensuring complete safety, and every FYBROS product is ideally suited for smart homes, offices, and buildings of now and the future.

Welcome to the world of Smart Electrical Creations. Welcome to the world of Smart Living.

Five decades back we started our journey with a vision to provide best in class electrical products to people. As we witnessed, over the course of time technology has become a mainstay of our lives, transforming the way we live and work. Today, with special focus on R&D, we bring to you a range of innovative products that defines the new-age lifestyle - great performance to match with great aesthetics. Because being smart is not enough and at the same time having style is not enough.

1968 - Begins trading in Electrical Products

1975 - Launch of KUNDAN CAB

1985 - First manufacturing unit of Wires

1989 - First manufacturing unit of Switchgears

1992 - Commencement of Balar Marketing Pvt. Ltd.

1994 - Diversifies into Switches & Accessories

2003 - State-of-the-art plant in Bhiwadi for Wires & Cables

2008 - Expansion across India with a wide range of products

2010 - Launch of FYBROS Switches & Accessories

2015 - Launch of FYBROS LED range of lighting systems

2015 - KUNDAN CAB comes with a new name FYBROS - Smart Electrical Creations

2016 - Fybros makes its grand debut at Elecrama and receives overwhelming response

2017 - Digital transformation of the company, encompassing every business vertical

2018 - Deep penetration of Fybros across length & breadth of India

2020 - Launch of most advanced and exclusive four-x range of fybros modular switches and accessories

2024 - Launch of FYBROS FANS

WIRES & CABLES

TOTAL PROTECTION

High-quality Fybro's range of safe wires – Flame Retardant (FR), Zero Halogen Flame Retardant (ZHFR) and Ultra Flexible Flame Retardant (UFFR) provide total protection to modern homes and offices against fire hazards.

SUBMERSIBLE PUMP CABLES

These connecting cables are used to connect underwater submersible pump set with the supply line, agriculture, irrigation, domestic installation, outdoor application and power supply.

SINGLE & MULTICORE CABLES

Round Flexible Industrial Cables

These cables are mostly used for wiring in machines, control panels, electric power supply, modern electric appliances and equipment.

SWITCHES & ACCESSORIES

FOUR-X

MODULAR SERIES

With deep user insights and relentless research we are able to build truly excellent products. Our switches & accessories are an example of our commitment to quality and customer satisfaction. They are designed to perform and deliver on their intended promises. Every product is an example of excellence in ideas that excite your imagination.

SWITCHES & ACCESSORIES

X63 MODULAR SERIES

Introducing the X63 – where design meets innovation. Crafted with sleek lines and premium finishes for a modern aesthetic. Engineered for smooth performance and lasting durability. A perfect blend of style, function, and sophistication. Elevate every space with the elegance of X63.

WOOD~em

MODULAR SERIES

A timeless design that never goes out of fashion. It's a culmination of good finesse and performance what makes FYBROS switches suitable for every home. Good ideas create a good design. Good designs inspire a better living. It's a good design that matters the most. From this moment on, you're going to experience a whole new world of good products for a better lifestyle.

SWITCHES & ACCESSORIES

ZINE SERIES

To make a great product, you should not look at the competition, but at your customers. That is why, when we design products, it is always done keeping our customers in mind. From the material we choose to the fit and finish, our designers spend countless hours trying to understand our customer's needs. That's the secret behind the products we design. That's the secret behind our success.

LIGHTING SYSTEMS

Be a source of light not darkness. Fybro's CUBE elegant panel Lighting is Bright Bold & Beautiful. These are low depth recess-mounted sleek down lighter with aluminium housing and easy to install. It has simple design and appearance with adorable illumination effects. It is easy to install by recessed ring with clamping springs.

Add a rich decor to your home with the new **LED DOWNLIGHTS.**

The LED lighting solutions help lessen maintenance and reduce the energy use. LED down lights offer many benefits over fluorescent lamps or halogens that consume more energy than LEDs.

Fybras **STREET LIGHT** range allows you to step in and out in dark without any kind of fear of unit areas. It is made from heavy duty aluminium body with waterproof technology allowing its application in all weather round the clock. It has a flexible fixture which permits it to be mounted on any post.

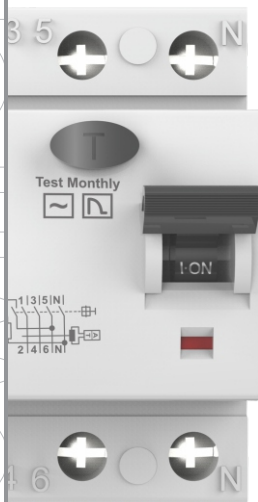

LED **FLOOD LIGHTS** are the most preferred choice as they last long and consume less electricity as compared to standard incandescent light sources, CFLs or halogen lights. So, they illuminate larger areas without being too expensive.

SWITCHGEARS

SWITCHGEAR MCBs, RCCBs & ISOLATORS

ARMOR

MCBs, RCCBs & ISOLATORS

MCB (Miniature Circuit Breaker) is made of thermo-magnetic, current limiting type and is available with Type-C operating characteristics. We use more commonly Miniature Circuit Breakers or MCBs in low voltage electrical network instead of fuse. It automatically switches off the electrical circuit during abnormal condition of the short circuit means in over load condition as faulty condition.

MAGNA DISTRIBUTION BOARDS

A distribution board (also known as panel board, breaker panel, or electric panel) is a component of an electricity supply system that divides an electrical power feed into subsidiary circuits, while providing a protective fuse or circuit breaker for each circuit in a common enclosure.

ELITE DISTRIBUTION BOARDS

The INSPIRIO range of distribution boards are elegant when it comes to their looks. They fit in perfectly with the interiors of your homes, adding to the aesthetics. The designer DBs serve a dual purpose. They not only save you from the harmful effects of current but also make your walls magnificent.

RéNOVE

Rewireable Switch Fuse (Single Break)
Change Over Switch (Off Load)

The re-wirable switch fuse units are used for distributing power, protecting electrical devices and cables from damage due to power fluctuations. This fuse unit is housed in an enclosure made using quality CR sheet. The fuse units are stringently tested in compliance with the IS: 10027 and IS:60947 PART-1 AND 3.

Switch Fuse Units are used for industrial and domestic purpose.

FANS

CEILING FANS

Ceiling Fans

Stay Cool and Stylish in Comfort

Crafted with an exceptional design, our ceiling fans come in various styles, finishes, colours and sizes to suit your interior decor. While these fans are aesthetically pleasing, they also deliver efficient performance, thanks to powerful, energy-efficient motors. Whisper-quiet operation and convenient features like Remote Controls make them a delight to use.

Refreshment in Every Space

Fybos presents a comprehensive assortment of cooling solutions, encompassing Table Fans, Wall Fans and much more. Whether your preference leans toward compact elegance, versatile performance, or space-saving solutions, our fans have been meticulously designed to grant you an excellent experience, ensuring that even in the most oppressive heat, a refreshing breeze remains at your command.

EXHAUST FANS

Exhaust Fans

Embrace the refreshing airs

Explore our extensive range of Exhaust and Ventilation Fans – essential solutions dedicated to ensuring optimal air quality and freshness in any space. Whether you are looking to enhance ventilation in your kitchen, bathroom, or any other enclosed area, our diverse range of fans is thoughtfully engineered to meet specific requirements.

INNOVATION

Innovation is the crucial element of our manufacturing of products. This is the reason we have substantially invested in our R&D department so as to be in line with the industry standards and modernize our collection of Electrical Products.

In order to expand and improvise our range, our R&D professionals undertake market research and discover newer information and technology that can be imbibed in the range. Based on the studies, the development department designs products that incorporate the new specifications so as to make our range of products stand apart in the market.

In short, whatever FYBROS products you lay your hands on, rest assured of its quality.

INTERNATIONALLY APPROVED
