Wires & Cables

Fybros offers a wide range of wires and cables, including ULTRA FLEXIBLE FR wires, flame retardant copper wires, residential electric cables, industrial power cables, and data transmission cables, all designed for superior performance and safety.

Flame Retardant | Safety | High Quality | Reliable

FYBROS GREEN+ WIRE

HR-FR-LSH-LF

• Heat Resistant • Flame Retardant
• Low Smoke • Halogen • Lead Free

Safety That Protects What Matters Most

Fybros Green+ Wires are designed to deliver superior protection for your home, with enhanced heat and fire resistance, low smoke emission and reliable electrical performance. Built to help reduce electrical risks, they keep your home and loved ones safer, every day. Engineered with advanced safety features, these wires offer dependable performance under demanding conditions. Their enhanced protection makes them a smart choice for modern homes where safety, durability and peace of mind matter most.

- Low Emission of Smoke
- High Abrasion Resistance
- High Flexibility
- Triple Layer Safety

FR

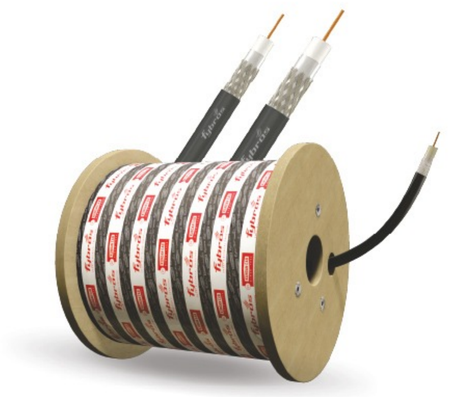

FR - FLAME RETARDANT (MULTISTRAND) PVC INSULATED INDUSTRIAL CABLES

Flexible multi-strand wires with flame-retardant insulation, offering enhanced safety, high insulation resistance and reliable performance for everyday electrical applications. Designed for consistent current flow and dependable long-term performance, these cables offer excellent flexibility for easy installation. Their robust insulation helps provide added protection in demanding electrical environments.

CO-AXIAL CABLES

GAS INJECTED PHYSICAL FOAM JELLY FLOODED INDUSTRIAL CABLES

High-performance cables with pure copper conductors and advanced shielding for reliable audio and video signal transmission. Ideal for DTH, CATV and CCTV. Designed to minimise signal loss and interference, they deliver clear and stable signal transmission over extended runs. Their robust construction ensures reliable connectivity for modern entertainment, surveillance and communication systems.

UFFR

Ultra Flexible Flame Retardant PVC INSULATED INDUSTRIAL WIRES

Ultra-flexible wires with 99.97% pure copper conductors and triple-layer protection against shock, short circuits and fire. Ideal for modern electrical installations. Engineered for superior flexibility and smooth installation, they perform reliably even in applications requiring frequent bends and routing. Advanced insulation provides added durability and enhanced electrical safety.

COMPUTER & LAN NETWORKING CABLES

HIGH-SPEED. RELIABLE CONNECTIVITY.

Fybros CAT-6 Cables deliver high-speed data transmission and dependable network performance for homes, offices, commercial spaces and industries. Built for efficient and consistent data transfer, they support high-performance networking across connected devices. Their reliable construction makes them suitable for modern digital environments requiring stable and uninterrupted connectivity.

FR-LSH

Flame Retardant Low Smoke Halogen PVC INSULATED INDUSTRIAL WIRES

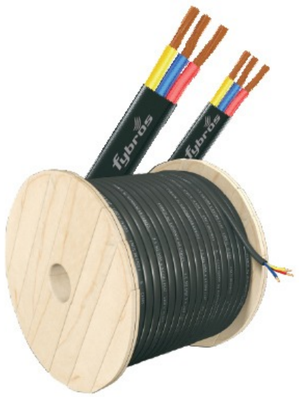

Designed for enhanced fire safety, these wires reduce smoke and toxic fumes while delivering reliable power transmission and superior electrical performance. Their low-smoke formulation helps improve visibility and safety during fire-related situations. Ideal for modern installations where enhanced protection and dependable performance are equally important.

TELEPHONE & SWITCHBOARD

PVC INSULATED INDUSTRIAL CABLES

Pure copper cables with twisted pairs for reliable signal transmission and reduced crosstalk. Ideal for telephone and switchboard wiring. Designed to maintain clear and consistent communication signals, these cables provide dependable connectivity for voice and switching applications. Their durable construction ensures reliable performance and easy installation across residential and commercial environments.

WATER-PROOF SUBMERSIBLE PUMP CABLES

Manufactured from bright-annealed 99.97% pure bare copper conductors, these cables have low conductor resistance. The inner cores are insulated with a special grade PVC compound formulated. The tough robust outer PVC jacket protects it from the oils, greases, various chemicals and abrasions, thereby giving long life and
electrical safety.

SINGLE & MULTICORE CABLES

Fybros Multicore Flexible Cables are manufactured using 99.97% pure electrolytic-grade copper conductors and high-quality PVC insulation for superior safety, flexibility, and performance. Designed for low conductor resistance and reliable power transmission, these cables are ideal for machines, control panels, power supply systems, electrical appliances, and industrial equipment.

fybros
SMART ELECTRICAL CREATIONS

The Wire Behind Every Safe Home

Built with 99.97% pure electrolytic copper and advanced insulation, Fybros wires deliver dependable power, enhanced safety, and lasting performance for every corner of your home.

Switchgears

Reliable Protection. Smarter Power Control.

Fybros Switchgear delivers reliable protection, precise control and efficient power management for residential, commercial and industrial applications. Engineered for safety, durability and easy installation, our range ensures dependable performance and long-lasting protection against electrical faults.
